Contents Volume 28

Foreword
A. Schurr (U.S.A.) v

The applicability of brain slice methodology to the study of focal cerebral ischaemia in the rat: an evaluation
R.H. Lye and P.H. Clough (U.K.) 1

Electrophysiology of energy metabolism and neuronal function in the hippocampal slice preparation
A. Schurr, C.A. West and B.M. Rigor (U.S.A.) 7

Intracellular recording from putative dopamine-containing neurons in the ventral tegmental area of Tsai in a brain slice preparation
A.L. Mueller and M.S. Brodie (U.S.A.) 15

Glucose utilization of ischemic hippocampal slices
G.C. Newman, F.E. Hospod and P. Wu (U.S.A.) 23

Pathophysiology of the spinal cord studied in vitro
G.G. Somjen and G. Czéh (U.S.A.) 35

Protection against cerebral hypoxia by local anesthetics: a study using brain slices
L.F. Lucas, C.A. West, B.M. Rigor and A. Schurr (U.S.A.) 47

MPP^+-induced pathophysiology demonstrates advantages of neurotoxicology studies in brain slices
G.E. Hollinden, J.R. Sanchez-Ramos, T.J. Sick and M. Rosenthal (U.S.A.) 51

Intrinsic and synaptic mechanisms of hypothalamic neurons studied with slice and explant preparations
F.E. Dudek, J.G. Tasker and J.-P. Wuarin (U.S.A.) 59

The brain histamine system in vitro
H.L. Haas, R.W. Greene and P.B. Reiner (F.R.G., U.S.A., Canada) 71

Methods for studying the effect of anesthetics on anoxic damage in the rat hippocampal slice
I.S. Kass, A.A. Bendo, A.E. Abramowicz and J.E. Cottrell (U.S.A.) 77

Manipulating the intracellular environment of hippocampal slices: pH and high-energy phosphates
T.S. Whittingham, E. Warman, H. Assaf, T.J. Sick and J.C. LaManna (U.S.A.) 83

Low threshold calcium spikes, intrinsic neuronal oscillation and rhythm generation in the CNS
M.J. Gutnick and Y. Yarom (Israel) 93

Comparative aspects of hippocampal and neocortical long-term potentiation
T.J. Teyler (U.S.A.) 101

Long-term potentiation: studies in the hippocampal slice
J.M. Sarvey, E.C. Burgard and G. Decker (U.S.A.) 109

Indo-1 measurements of intracellular free calcium in the hippocampal slice: complications of labile NADH fluorescence
T.J. Sick and M. Rosenthal (U.S.A.) 125

Electrophysiology of adult rat facial motoneurones: the effects of serotonin (5-HT) in a novel in vitro brainstem slice
P.M. Larkman, N.J. Penington and J.S. Kelly (U.K.) 133

Regulation of glycogen in the dentate gyrus of the in vitro guinea pig hippocampus; effect of combined deprivation of glucose and oxygen
P. Lipton (U.S.A.) 147

Research Papers

Improvement of the tetramethyl benzidine reaction with ammonium molybdate as a stabilizer for light and electron microscopic ligand-HRP neurohistochemistry, immunocytochemistry and double-labelling
F. Liang and X.S.T. Wan (China) 155

A simple method for the Schwann cell preparation from newborn rat sciatic nerves
Y. Oda, Y. Okada, S. Katsuda, K. Ikeda and I. Nakanishi (Japan) 163

Alterations in the corticomotor evoked potential following spinal cord ischemia
R.K. Simpson Jr., C.S. Robertson and J.C. Goodman (U.S.A.) 171

An eyecup slice preparation for intracellular recording in vertebrate retinas
D.A. Burkhardt, J. Gottesman and W.B. Thoreson (U.S.A.) 179

Inner ear implants for experimental electrical stimulation of auditory nerve arrays
X. Xue and B.E. Pfingst 189

A new method for relating behavior to neuronal activity in performing monkeys
E.B. Montgomery Jr. (U.S.A.) 197
Enhancing high-speed digitization of single-unit neuronal activity on a microcomputer using a hybrid software–hardware technique
J.W. Aldridge, J.L. Walden and S. Gilman (U.S.A.) 205
Multisite recording of brain field potentials and unit activity in freely moving rats
G. Buzsàki, R.G. Bickford, L.J. Ryan, S. Young, O. Prohaska, R.J. Mandel and F.H. Gage (U.S.A.) 209
A lightweight hybrid microdrive for use with awake unrestrained animals
A. Amos, D.M. Armstrong, R. Harris and D.E. Marple-Horvat (U.K.) 219
Improving performance of motorized slides for micromanipulation
X. Gao and F. Sachs (U.S.A.) 225
A microtest plate assay of functional excitatory amino acid receptors
N. Eshhar, M. Lusky, P. David and V.I. Teichberg (Israel) 229
Effect of fixatives on rat brain acetylcholinesterase activity
E.G. McGeer and P.L. McGeer (Canada) 235
Use of formamide increases the number of detectable inputs to polyneuronally innervated mammalian skeletal muscle
S.P. Donahue and A.W. English (U.S.A.) 239
